

SAFE PAYMENTS

Take no risk with your money and choose the SAFE Payments payment method!

YOU DON'T TAKE ANY RISK WITH MONEY!

We believe in honest business doing and equality between customer and supplier in financial transactions. Paying with SAFE ensures that payment is not made to your supplier until your delivery has been delivered in full and as agreed.

Your benefits

- Your money is secure - through SAFE - in escrow until the moment of delivery
- As a buyer you only agree to payment after the moment of delivery of your purchase
- If your purchase is not delivered, you instruct SAFE not to pay. Your money is safe until the purchase/service has been delivered
- No more barrier or risk to paying in advance thanks to security and trust
- Simple and quick online payment through your own personal order page
- Easy instant payment through iDEAL or bank transfer with payment reference from SAFE.
- SAFE Payments will keep you informed by email and text message (if desired).
- Transactions always go through a secure connection (<https://>)
- This service is available at no cost. The supplier pays us a service fee.

“This is the ultimate solution for me when it comes to larger purchases. The barrier and caution to pay larger sums in advance is gone, ideal!”

Secure

SAFE Payments facilitates an integrated secure payment solution for financial transactions between you and the supplier, where all payments are processed through the SAFE system. This conditional payment solution is ideal for transactions where the time of delivery and payment are often not simultaneous. With the SAFE payment method, the purchase amount is safely held in escrow until the delivery has been made as agreed. Only then the funds will be paid out to the merchant.

Assured

This assures you that your money will be kept safe until the moment the supplier delivers, while the selling party can rest assured that the payment for the sale is available. This way both parties are fully protected. Neither party will have the money and the product at the same time. In the unlikely event that something goes wrong with the delivery, the pay out can be (partially) deferred through SAFE until the problem has been solved. This way you can be sure that you get what you have purchased. That is clear, that is SAFE. After all, a deal is a deal.

HOW SAFE WORKS IN 7 SIMPLE STEPS

1

Choose SAFE as the payment method when concluding the purchase agreement

2

Receive the SAFE Payments terms and conditions and instructions

3

Receive the purchase confirmation from SAFE

4

Check the purchase details

5

Make payment(s) through SAFE

6

Receive delivery notification

7

Accept order or report a problem within 4 days

Reviews

"With SAFE Payments you fulfil a very important link in the purchasing process for the parties involved; you remove an important barrier, brilliant!"

- Supplier

"This is the ultimate solution for me when it comes to larger purchases. The reluctance and caution to pay larger sums in advance is gone, ideal!"

- Customer

If I make a large purchase, SAFE will only pay after I have confirmed that everything is in order"

- Customer
